

Importing Keras libraries

```
import keras
```

▼ Importing ImageDataGenerator from Keras

```
from keras.preprocessing.image import ImageDataGenerator
```

▼ Defining the Parameters

```
train_datagen=ImageDataGenerator ( rescale=1 . / 255, shear_range=0.  
2, rotation_range=180,zoom range=e.2,horizontal flip=True)  
test_datagen=ImageDataGenerator ( rescale=1 . / 255)
```
